SKILLS

`HTML5` `CSS3` `JavaScript` `SASS` `BootStrap` `GIT` `AJAX` `JQuery`

PROJECTS

Web App Dashboard ⬈
- A built from scratch front-end dashboard utilizing the power of the grid and chart.js.
- HTML/CSS
- JavaScript
- Chart.JS

Wheel of Success ⬈
- The Wheel of Success is a hangman style guessing game that is built with HTML5, CSS3, and vanilla JavaScript. Its heavily reliant on arrays, conditionals, loops, and the knowledge of all DOM manipulation.
- HTML/CSS
- JavaScript

Employee Directory ⬈
- Utilizing the power of JavaScript to pull data from a Random User API. The front end was built from scratch and is searchable by employee name using vanilla JavaScript.
- HTML/CSS
- JavaScript
- Random User API

Styled Site Form ⬈
- A responsive mobile first registration form utilizing a strong grasp on HTML5 and CSS3.
- HTML/CSS

SASS Style Guide ⬈
- A complete style guide practicing SASS for centralized color and asset organization.
- HTML/CSS
- SASS

Responsive Photo Gallery ⬈
- A searchable photo gallery that utilizes a lightbox plugin for viewing images. Heavy flexbox usage is also in play keeping the site responsive with minimal CSS.
- HTML/CSS
- JavaScript
